

Tatra 8x8 & 6x6 Heavy Truck Life Extension

CAPABILITY SHEET - ASSEMBLY REPLACEMENT, SYSTEM OVERHAUL & STAGE-WISE ACCEPTANCE

WHAT LIFE EXTENSION IS

WHAT WE DO	A worn truck comes in. We replace the major assemblies. We strip and overhaul everything else. It goes back out fit for years more service.
WHY IT IS CHECKABLE	The scope names what has to leave the truck, so it can be audited item by item. A service scope usually cannot, because it only describes a result.
THE OUTCOME WORD	Measurable, never guaranteed. Nobody can promise a fixed number of further years, because loading, terrain and maintenance leave our hands at handover.

TWO PARTS LISTS

LIST A - MUST CHANGE	Replaced on every truck whatever the strip-down finds. Starter motors, alternator, clutch group, brake cylinders and valves, dampers, wiring looms.
LIST B - ON CONDITION	Replaced only where the strip-down finds cause. Steering gearbox, propeller and drive shafts, winch drive, oil coolers, air reservoirs, yokes, glazing.
WHY IT MATTERS	Price only List A and the job is under-scoped. Assume all of List B and the bid is too expensive. The estimate between them is the skill.

THE WORK CONTENT

FIFTEEN WORK PACKAGES	Engine and gearbox overhaul; lubrication, fuel, steering, electrical, transmission, intake and exhaust, brake, tyre inflation, suspension and cabin systems; heater; body.
PER VEHICLE, MANDATORY	256 brake rivets, 32 linings, 16 shoes, 40 wheel nuts, better than 50 lamps. Brake gear is relined at component level, not swapped as an assembly.
VALUE ADDITION	A 360-degree camera system, dashcam, tyre-pressure monitoring, cabin stowage for four weapons and a cabin extinguisher - capability the vehicle never left with.

ACCEPTANCE & ENGAGEMENT

STAGED, NOT FINAL	Laboratory-accredited evidence on engine and gearbox; an advance sample of two complete vehicles approved before bulk work; stage-wise inspection throughout.
PLAN AROUND THE GATE	The sample gate consumes the opening weeks, so delivery is batched and back-loaded. A schedule showing linear output from day one has not read the clause.
ENGAGEMENT	Send the fleet, the configuration and the standard of work required, to sales@neometrixgroup.com.
