

NEOMETRIX

STANDARD REMOTE CONTROL INTERFACE

About

Indigenized remote control interface card suitable for MAFI system CCR equipment. Compatible for IDM8000 CCR. Backplane mounted serial and TCP/Ethernet communication module for CCR remote access. IDM 8000 CCR remote control on serial and TCP protocol.

- Remote control: Parallel or serial interface.
- Compatible with MAFI CCR system.
- Compatible with IDM8000 CCR.
- Compatible with Backplane mount serial communication.
- Compatible with commercial and Defence aviation CCR system.
- Remote control system for accessing CCR and allied system over serial or TCP.
- Indigenized local Support/presence in India.
- Easy in configuration using DIP switches.

NEOMETRIX

Technical Specifications

Indigenized remote control interface card suitable for MAFI system CCR equipment. Compatible for IDM8000 CCR. Backplane mounted serial and TCP/Ethernet communication module for CCR remote access. IDM 8000 CCR remote control on serial and TCP protocol.

NEOMETRIX

Key Features

Indigenized remote control interface card suitable for MAFI system CCR equipment. Compatible for IDM8000 CCR. Backplane mounted serial and TCP/Ethernet communication module for CCR remote access. IDM 8000 CCR remote control on serial and TCP protocol.

- Remote control: Parallel or serial interface
- Compatible with MAFI CCR system
- Copatiable with IDM8000 CCR
- Compatible with Backplane mount serial communication.
- Compatible with commercial and Defence aviation CCR system.
- Remote control system for accessing CCR and allied system over serial or TCP.
- Indigenized local Support/presence in India.

NEOMETRIX

Application

- Remote control: Parallel or serial interface.
- Compatible with MAFI CCR system.
- Compatible with IDM8000 CCR.
- Compatible with Backplane mount serial communication.
- Compatible with commercial and Defence aviation CCR system.
- Remote control system for accessing CCR and allied system over serial or TCP.
- Indigenized local Support/presence in India.
- Easy in configuration using DIP switches.
